Case Scope And Binding Studies

Case, Scope, and Binding investigates the relation between syntax and semantics within a framework which combines the syntactic Government-Binding theory with a novel cross-linguistic theory of case and semantics. It is argued that case assignment, agreement, syntactic binding relations, as well as the minimum scopes of operators, are all determined by the relations which hold at the level of ...

A case study is an in-depth examination of a phenomenon with regard to an individual, an entity, or a group. Because a case study is quite detailed, by definition, it limits the scope of the study. Nevertheless, it is important to define the scope in order to establish whom exactly you are studying.

Inadequate or non-existent business cases usually result in unclear project scope. This often leads to scope creep, which results in rework, cost overruns, delays, etc. In addition, inappropriate approaches on projects often lead to rigid solutions, such as selecting a commercial off-the-shelf (COTS) package when a custom solution is warranted. This paper addresses the problem of projects not ...
