Ch 13 Chemical Kinetics Desu

In recent years, a new original trend has developed in chemical kinetics, aiming at a complex study of the chemical process in combination with the physical processes of transfer of heat and matter.

Diffusion and Heat Exchange in Chemical Kinetics

Perovskite solar cells have emerged as one of the most promising thin-film photovoltaic (PV) technologies and have made a strong debut in the PV field. However, they still face difficulties with ...

Slot-die coating large-area formamidinium-cesium perovskite film for efficient and stable parallel solar module

Your local section/international chapter coordinator will provide you specific details of how students in your area will participate this year. If you have any additional questions, please contact ...
