institutional reform including a reduced role for central government in service provision.

### **Chapter 1: What is decentralization?**

Decentralization is not the same as delegation. In fact, decentralization is all extension of delegation. Decentralization pattern is wider in scope and the authorities are diffused to the lowest most level of management. Delegation of authority is a complete process and takes place from one person to another.

### **Centralization and Decentralization**

By N. Dean Meyer. Many business leaders want to own their own IT groups. In other words, they advocate decentralization. Most grant that corporate IT should be the sole provider of some ...

the greatest challenges in contemporary public finance policy and management. Given the localized nature of most infrastructures, ensuring its efficient provision represents a challenge for all countries irrespective of their level of centralization or decentralization.

## **Decentralization And Infrastructure: From Gaps To Solutions**

On the other hand, Decentralization refers to the dissemination of powers by the top management to the middle or low-level management. It is the delegation of authority, at all the levels of management. To determine whether an organization is centralized or decentralized greatly depends on the location of decision-making authority and the degree of decision-making power at lower levels.
