CHK ENGINE LIGHT For every motorist it is most annoying :osad: if "CHECK ENGINE" yellow light pops-up while driving along. It is the most misunderstood indicator on your dashboard, the "check engine" light can mean many different things, from a loose gas cap to a seriously malfunctioning engine loosing power.

Do-It-Yourself : Check Engine Light - Diagnosis | Toyota ...

The 4EFT/4EFE engine that powers the Starlet GT and Glanza produces 135 horsepower at 6,400 rpm and 116 foot-pounds of torque at 4,800 rpm. In the JDM Starlet, this was good for an 8.2-second sprint to 60 mph. In stock form, performance might not be considered stunning by today's standards -- but that's easily remedied.

4EFT/4EFE Engine Specifications | It Still Runs

The Toyota E family of engines began in 1985 and were a significant departure from other engines of the period in that they were the first Toyota engines to swap the timing chain for a belt. Built as practical, everyday engines meant to maximize economy and durability, these engines became a cornerstone of four-cylinder designs for the company.

The Toyota E engine family is a straight-four piston engine series, and uses timing belts rather than chains. The E engines were the first multi-valve engines from Toyota designed with economy, practicality and everyday use in mind. Like many other Toyota engines from the era, the E engine series features a cast iron block, along with an aluminium cylinder head. E engines are lighter than earlier Toyota engines, due to the hollow crankshaft, thinned casting of the cylinder block, and several oth

However, a common misconception about car diagnostic tests is that technicians can use code-reading tools to determine the exact problem that triggered the check engine light. In reality, the code tells technicians which engine or component parameters are out of range, but it does not detail the cause of the problems.

What is a Car Diagnostic Test & Why is it So Important?

Want to increase the power of my 4efe without turbo - posted in General: I want to turbo but not yet, my insurance is high already and turbo charging will be expensive. I am asking for any tricks that will give me some extra power & surprise my friends. If you have a rough estimate as to the cost of the improvements can you give them to.Thanks.
