EC101 DD & EE / Manove Supply & Demand > Market Equilibrium p 3 Market Equilibrium A system is in equilibrium when there is no tendency for change. A competitive market is in equilibrium at the market price if the quantity supplied equals the quantity demanded. We will show that in this equilibrium, the price

### **Lecture 6: Market Equilibrium, Demand and Supply Shifts**

The equilibrium price is the only price where the desires of consumers and the desires of producers agree—that is, where the amount of the product that consumers want to buy (quantity demanded) is equal to the amount producers want to sell (quantity supplied). This mutually desired amount is called the equilibrium quantity.
