Article 647 - 2002 National Electrical Code

The National Electrical Code (NEC), or NFPA 70, is a regionally adoptable standard for the safe installation of electrical wiring and equipment in the United States. It is part of the National Fire Code series published by the National Fire Protection Association (NFPA), a private trade association. Despite the use of the term "national", it is not a federal law.

National Electrical Code | CPSC.gov

This national electrical code was mainly implemented to accommodate potential future uses. Electronic switches require a small amount of constant electricity and therefore need a neutral wire run to them. There are exceptions to this NEC code, but if the walls are currently open anyway, don't make the next person fish in a wire.

The 8 Most Common National Electric Code Violations

90.2 Scope. (A) Covered. This Code covers the installation and removal of electrical conductors, equipment, and raceways; signaling and communications conductors, equipment, and raceways; and optical fiber cables and raceways for the following: (1) Public and private premises, including buildings, structures, mobile homes, recreational vehicles, and floating buildings
(2) Yards, lots ...
